COLLECTIONS

# Arco

Design Mut

Arco is a product characterized by functional versatility and material blend. It is available in matt black and brushed brass, with an integrated mirror and a shelving system hiding on the back which increases the functionality of the object. A series of smaller mirrors with hidden shelves complete the collection: Arco Mirror (available horizontal and vertical) and Arco S Mirror. Conceived by the designers as accessories, these mirrors offer many options: they can be set together thanks to a game of different depths or used as single objects in many living spaces.

Hang stool - p. 121 / Arco mirror - p. 109

# Beam

Bathtub by Sans Nom & Salaris Studio  
Console by Sans Nom

Inspired by the geometrical strict timber structure used in buildings, Beam collection is a refined interpretation of functionality within a limited space. As a centerpiece of the collection, a compact, cosy yet generous bathtub, lays down on a geometrical strict base contrasting with the soft lines of the white tub's body in LivingTec®.

A refined washbasin and a wooden cabinet complete the collection. The LivingTec® basin smooth lines harmoniously meet up with the severe shape of the wooden storage that, despite its compact size, provides a practical solution for organizing bathroom items.

# Berg

Design Ex.t

Berg is a versatile and stylish contract solution that combines functionality with elegance. It's designed to transform any space with its clean lines, high-quality materials, and durability.

Its stainless steel frame coated with powder paint ensures exceptional wear resistance while the minimalist design integrates perfectly with the undermount sink in Solid Surface Cristalplant®.

A wide range of customization options of Berg makes it easily adaptable to the needs of any project.

# Eileen

Design Ex.t

Console with integrated basin and towel rail, Eileen's practical but stylish design makes it suitable for various kinds of spaces, and the perfect choice for residential, commercial and hospitality projects of any range. Available in two sizes, it now features structures in four colours with the addition of the blue and the beige red to the classic black and white.

# Frame

Design Norm Architects

Frame is a modular system of bathroom consoles and furniture.

The collection features a straight and minimalist design, turning in a delicate piece with a Nordic allure. A flexible system consisting of a number of graphic frames, customisable depending on your needs and with a functional purpose.

The main structure is designed to accommodate the basin as well as a counter top in various materials. Thanks to its versatility, Frame is a perfect solution for any living space.

Frame console - p. 82 / Frieze mirror - p. 110  
Nouveau square 50 mirror - p. 111 / Peacock lamp - p. 123

# Frieze

Design Marcante-Testa

Inspired by “entablatures” series by Roy Lichtenstein, the project is articulated through different levels of signs, materials and colours where the washbasin stars as central element of the bathroom. The architectural approach of the designers involves the entire spatial dimension of the bathroom: the position of the sink is defined by a central band, available in different materials and colours, creating space to install mirrors, shelves, furniture and towel hooks.

Frieze console - p. 84 / Frieze mirror - p. 110  
Hang stool - p. 121

# Fuse

Design Note Design Studio

Fuse lamps combine Italian craftsmanship with the essence of Nordic aesthetics, in a perfect blend of materials and style. The sense of touch and the visual impact play a fundamental role in Fuse lamps design: the soft ceramic creates a stylistic continuum with the small wooden hat that lights up when the lamp is on, giving warmth to the whole room.

# GUS

Design Michel Hilgers

Designed by Michael Hilgers, Gus is inspired by contemporary classic furniture to give bathrooms a touch of living room atmosphere. The slim handmade ceramic basin with a hidden siphon is supported by a light see through structure reminding of Gustave Eiffel's Parisian Masterpiece. Gus washbasin is a perfect piece for small or narrow bathrooms.

The metal structure is available in black or white.

We give a *new*  
shape to the  
*bathroom*,  
transforming it  
into a space of  
style, comfort, and  
innovation.

# Noto

Design Ext

Noto is a new versatile and dynamic system featuring storage units for the bathroom. Available in two sizes, it can be paired with integrated or countertop washbasins. Multiple solutions for a single component featuring clean and essential lines, suitable for different living spaces.

Noto vanity unit - p. 87 / Float mirror - p. 109  
Nudo shelf - p. 106 / Frieze mirror - p. 110 / Nouveau TWH towel hanger - p. 116

# Nouveau

Design Bernhardt & Vella

A collection of washbasins, cabinets, bathtubs, mirrors, showers and accessories featuring geometric and sinuous lines, born from a balance of basic and classic shapes such as circles, semi-circles and parallelepipeds, creating a game of volumes in a succession of full and empty spaces.

Freely inspired by early twentieth century Art Déco, the collection takes refined suggestions from that era and reworks them with the taste and sensitivity of a contemporary perspective.

Nouveau console - p. 90 / Nouveau Shelf mirrors - p. 111 / Fuse lamp - p. 123

Nouveau bathtub - p. 99 / Nouveau THSH shelf - p. 116 /  
Nouveau console - p. 90 / Nouveau Round 50 mirrors - p. 111

# Origami

Design Bernhardt & Vella

Origami's leading actor is the washbasin, featuring clean, marked lines drawing inspiration from the rigour of Japanese aesthetics.

The size of the cabinet, single or double, combines rigid forms with glossy finishes. Another element that emphasizes the sculptural nature of the collection is the support column which can be positioned against the wall and in the middle of the room.

The collection is completed by brushed metal accessories that contrast with the glossy lacquers of the furniture items.

Origami vanity unit - p. 93 / Origami mirrors - p. 111 /  
Origami console - p. 93 / Origami accessories - p. 116

# Peacock

Design Samuel Wilkinson

Peacock is a minimal lamp that reveals its hidden beauty as you pass by. A domed borosilicate glass diffuser is nearly positioned within the outer glass cone so that when illuminated a radiating reflection fans out across the surface, reminiscent of the way a peacock's plumage.

# Plateau

Design Sebastian Herkner

Plateau Collection is inspired by the idea of playing and experimenting with shapes and colours to create a set of products that are stylish as well as useful and versatile. That's how a sidetracking plateau came up, becoming the stylistic leitmotif for the entire collection. Functional and elegant, this detail is a feature in every piece from the bathtub and washbasin to the mirrors, just as a shadow in movement sets down on different surfaces whilst keeping its shape.

Plateau bathtub - p. 100

# Raso

Design Sebastian Herkner

The Raso line features two unique design lamps made of glass. Inspired by the softness of a silky texture, they give a suffused and delicate illumination thanks to the contrasting clear and frosted glass which defines the design. Available in pink, grey, white and transparent to meet many tastes, Raso lamps are exclusive pieces to give a touch of style to various living spaces from the bathroom and the bedroom to the shop and the restaurant alike.

# Rest

Design Norm Architects

Rest is the collection of seating designed by Norm Architects which include poufs, a lounge chair and a daybed.

A small pouf available in two sizes with seatings in linen and wool in addition to the regular selection of upholstery of the line.

The design of Rest Lounge Chair is inspired by the way Japanese people use to sit on the floor and lean on the surrounding furniture to rest: thus, the low and wide backrest can be a regular support for the back when in a sitting position or a comfortable support for a short rest if standing.

Rest daybed - p. 121 / Felt shelving system - p. 105 / Fuse lamp - p. 123 / Rest Round 50 pouf - p. 121

# Ribbon

Design Sebastian Herkner

Featuring a bathtub, a console and a washbasins Ribbon collection is a contemporary product with a strong personality.

A square-shaped wall-mounted washbasin of small dimensions, is designed for cosy spaces. Like the oval sink and the bathtub, Ribbon Square features functional and aesthetic elements that give brightness and sophistication to the product.

Ribbon console - p. 95 / Nouveau Shelf mirror - p. 111  
Ribbon bathtub - p. 100 / Nudo shelf system - p. 106

# Stand

Design Norm Architects

Iconic collection inspired by the Modernist style of 1920s and 1930s interiors, Stand design features the original spirit of Nordic design. Geometric purity, simple naturalness and sober authenticity coexist in a perfect balance between functionality and aesthetic, giving life to objects that are sculptural and elegant yet light and airy at the same time.

Approaching to the 10th anniversary for Stand collection designed by Norm Architects, Ex.t unveils the Stand console features a dark stained ash structure.

Design Fabio Fantolino

A collection of bathtub, bathroom furniture, mirrors, shelves and accessories aiming to break the mould. Dedicated to those who always seek innovation, beauty and design for the home, Swing leads us to a reinterpretation of lines and shapes from the early 1900s styled with a contemporary and practical twist. Also the colours have been conceived to break the rules; allowing to match the palette with walnut hues and play with the details as well as customising products in countless combinations.
